RE: NEW PRODUCT ANNOUNCEMENT ATD II – GOLF CARTS/UTILITY VEHICLES

Advanced Test Environments (*ATE*) is proud to announce the release of the electronic ANTI-THEFT DEVICE II (ATD II) for use on all golf carts and utility vehicles. This is a second generation product that has Improved reliability and is more cost effective to use. Please visit our web site to review the product sheet that describes the Theory of Operation for the Anti-Theft Device.

The ATD II is an electronic device that integrates into the ignition wiring harness and prevents unauthorized starting of the vehicle. Only the person with the authorized FOB can start the vehicle. The ATD II is quickly and easily installed. It is interchangeable in its application for use on golf carts and utility vehicles. The ATD II is part of a new line of vehicle anti-theft devices being introduced by *ATE*.

By electronically disabling the ignition with an ATD II the owner takes the most effective way of minimizing vehicle theft. The ATD II is simply the most cost effective solution on the market.

Recognizing the increasing concern in the industry over vehicle theft, *ATE* has developed this product to allow you to secure your vehicle, thus reducing the chance that it is stolen.

Dealers are always welcome.

ATE is a technology design and sales company and can be found on the web at www.advte.com.
